IKRAM AFAKHAR

Junior Software Engineer

Casablanca, Morocco | +212 608 63 03 33 | afakhariikram@gmail.com | LinkedIn: https://www.linkedin.com/in/ikram-afakhar-0665a7266/ | GitHub: https://github.com/Afakhar27 | Portfolio: https://afakhar27.github.io/portfolio/

PROFESSIONAL SUMMARY

Junior Software Engineer and recent graduate with a Master's degree in Networks and Information Systems, specializing in Full Stack Development and DevOps. Experienced in designing, developing, testing, containerizing, and deploying web applications using Java, Spring Boot, React, TypeScript, Docker, Kubernetes, CI/CD, and cloud technologies. Strong interest in software engineering, AI-powered applications, cloud infrastructure, and DevOps practices.

TECHNICAL SKILLS

Frontend: React, Angular, TypeScript, JavaScript, Tailwind CSS, Bootstrap, Three.js, Vite
Backend: Java, Spring Boot, Node.js, Express.js, Laravel, REST APIs
Databases: PostgreSQL, MySQL, PL/SQL
DevOps & Cloud: Docker, Kubernetes, GitHub Actions, Jenkins, Terraform, AWS, Azure
Testing & Monitoring: JUnit, Mockito, Selenium, Postman, Prometheus, Grafana

PROFESSIONAL EXPERIENCE

Software Engineer Intern (Final-Year Internship) — Segula Technologies Morocco
Feb 2026 – Aug 2026

- Designed and developed an intelligent web platform for centralizing and consulting automotive homologation regulations based on UNECE standards.
- Developed a RAG-based conversational assistant using LLM technology to enable engineers to query regulatory information from PDF documents.
- Integrated 3D vehicle visualization using Three.js to support engineers in analyzing automotive regulatory requirements.
- Implemented CI pipelines with automated frontend/backend checks, builds, and Docker containerization using GitHub Actions.

Handwritten Document Information Extraction (End-of-Year Project) — FST Settat
Apr 2025 – Jun 2025

- Built an OCR and AI solution to automatically extract information from handwritten birth certificates (Python, YOLOv8, RAG) with a simple, intuitive user interface.

Software Engineer Intern (Final-Year Internship) — Pôle d'Étude Doctorale, Cité de l'Innovation UH1
Apr 2024 – Jun 2024

- Developed a personalized social platform for doctoral students and graduates of UH1, improving tracking, mutual support, and interaction among users.
- Stack: Laravel, Angular, Bootstrap, MySQL.

ACADEMIC PROJECTS

Product Management Application (Spring Boot, React, DevOps)
Full-stack app with Spring Boot (CRUD + security) and React, unit/integration tests, CI/CD via Jenkins, Docker, Kubernetes; deployed on Azure with Terraform, monitored via Prometheus and Grafana.

Mobile E-Commerce Application (Flutter, Spring Boot)
E-commerce application with product catalog, user, cart, and order management.

College Administrative Management Application (Java)
Desktop application to manage room allocation, absences, and timetable optimization with centralized data processing.

EDUCATION

Master's Degree – Networks and Information Systems
Faculté des Sciences et Techniques, Settat | 2024 – 2026

Bachelor's Degree – Computer Engineering
Faculté des Sciences et Techniques, Settat | 2023 – 2024

University Diploma in Science and Technology
Faculté des Sciences et Techniques, Settat | 2021 – 2023

Baccalaureate – Physical Sciences
Lycée El Moukhtar Soussi, Casablanca | 2020 – 2021

CERTIFICATIONS

Amazon EKS Primer — AWS | Nov 2025

Getting Started with DevOps on AWS — AWS | Nov 2025

Oracle Cloud Infrastructure DevOps Professional — Oracle | Oct 2025

Introduction to Cybersecurity — Cisco Networking Academy | Aug 2025

LANGUAGES

Arabic: Native | **French:** Fluent | **English:** Intermediate

CORE STRENGTHS

Technical versatility | Analytical mindset | Fast learner | Autonomy | Team spirit | Organizational skills
